view the overall availability of stocks in the Central Pool, relative needs of various States, improved market availability on arrival of new rice, kharif and coarse-grain crop and the fact that the supply to Public Distribution System is only supplemental in nature. As a result of the review, the rice quota of most of the States was reduced uniformly by 20% and that of wheat increased for lean months by 5%.

(c) and (d). Requests are received from time to time from States/UTS from enhancement of their monthly quota of rice and wheat under PDS. However, allocations of rice and wheat from Central Pool are made to the various States/UTS on month to month basis taking into account the stocks in the Central Pool, market availability, offtake trend, relative needs of States/ UTS, and other related factors. These allocations are only supplemental in nature and are not intended to meet the entire requirement/demand of States/ UTs.
